

March 13, 2009

TO: PACT Participants

Thank you for your emails. Yesterday, over 200 of you from all over the State came and expressed your strong support of the PACT program being available to pay for all who are currently enrolled in PACT. It takes us all--working cooperatively together to fashion a solution!

We are humbled, gratified, and empowered by your outpouring of support as you have indicated with your comments, and emails. We too are committed.

In collaboration with members of the Legislature, leaders of colleges and universities and with the Governor's Office we are working to develop a plan for PACT to continue to serve the 48,000 current enrollees. We are heartened by their efforts.

PACT has already served over 13,000 students. We all know the importance and value of the PACT program to our children having a college education. It is the vessel that carries the dream of thousands more students currently enrolled in the program.

Sincerely,

Kay Ivey,
Chairman on behalf of all PACT Board Members
